The conference will also explore the European Commission's Circular Economy Package, and its impact on the dynamics of the entire supply chain, including the latest developments from the Waste Framework and Packaging directive, as well as the Single Use Plastics Directive.

Date and location: 27-28 February 2019 | Netherlands, Rotterdam

Registration information: <https://goo.gl/GTckUQ>

Energies Renouvelables Mali

Date et lieu

19-23 Février 2019 | Bamako, Mali

Information d'inscription

<https://www.enrkibaru.ml/>

[INSCRIRE MAINTENANT](#)

L'un des objectifs principaux de la plateforme EnR Kibaru est de mettre en avant les possibilités d'investissement dans les énergies renouvelables -EnR- au Mali et de servir d'espace d'information et d'échange pour tout investisseur privé et public, national, régional et international qui souhaiterait investir dans les EnR au Mali.

A cette fin, le Gouvernement du Mali a procédé à la révision et la mise à jour des documents et textes législatifs et réglementaires et des différentes stratégies nationales des sous-secteurs de l'énergie, de manière à les rendre plus cohérents et favorables notamment aux investissements dans les Energies Renouvelables (EnR) en conformité avec les orientations nationales et/ou les initiatives régionales et internationales, et en tenant compte de la décentralisation et de la priorité nationale qu'est devenue l'électrification rurale.

La plateforme EnR Kibaru collecte des données telles que prévisions d'investissement sectoriel, coûts des projets, types et chronogrammes de réalisation, potentiels existants, etc. Elle se charge aussi d'un travail de veille et de suivi des législations qui régissent les investissements au Mali à travers le diagnostic des documents et textes officiels.

L'ensemble de ces informations sont compilées dans une synthèse analytique des mesures politiques, législatives, réglementaires, administratives et structurelles les plus appropriées pour favoriser les investissements dans le secteur des EnR au Mali tout en tenant compte les leçons et des expériences acquises lors de réformes institutionnelles similaires réalisées dans d'autres pays en voie de développement afin de capitaliser ainsi les meilleures pratiques.

Grâce à ces travaux, le gouvernement malien, en collaboration avec ses partenaires techniques et financiers, renforce la cohérence entre les différents textes existants. La construction de ce cadre politique, législatif et réglementaire clair permet ainsi de diriger le secteur sur base d'une stratégie de développement des énergies renouvelables à long terme.

AIDF Africa Summit

Date and location
26-27 February 2019 | Nairobi, Kenya

Registration information
<http://africa.aidforum.org>

 REGISTER NOW

Now in its 4th year, the **AIDF Africa Summit** returns to Nairobi, Kenya on 26-27 February 2019, once again uniting 300+ humanitarian and development leaders, decision makers and advisors committed to achieving the Sustainable Development Goals (SDGs) in the region.

The AIDF Africa Summit presents an opportunity to explore best practice, policy and project updates, innovation and partnerships in ICT, data and mobile solutions for humanitarian and development programmes.

Participants will gain first hand insights from development banks, donors and government agencies into their financing priorities and funding guidelines as well as benefit from networking opportunities.

The Summit agenda includes keynote presentations, interactive sessions, themed roundtables, speaker panels, Innovator of the Year Award and an evening drinks reception to engage with decision makers and key stakeholders in Africa's aid and development sectors.

Save the date and [reserve your place here](#) to be part of the most influential aid and development conference in Africa.
