

Our analysts work around the clock to compile a comprehensive list of all the events and conferences in the development sector that you will not find anywhere else. Below are some of the most noteworthy events in the sector.

Upcoming Events

JUNE 2021

Global Deal Webinar Series: Promoting a gender-responsive recovery through social dialogue

The Global Deal brief on social dialogue for gender equality demonstrates that women have been disproportionately impacted by the economic and social fallout of the COVID-19 crisis. It is therefore important that gender equality is at the core of the efforts to build an inclusive, fair and sustainable recovery. Social dialogue can support these efforts since it is an efficient tool to deliver gender-equal outcomes and close gender inequality gaps in the world of work.

Date and location: 1 June 2021 | Online

How to make cities more resilient? Results and recommendations from the CASCADE project

Risks related to climate change and disasters are not only the concern for professionals engaged with sustainable development. It is becoming more evident each year that climate change is an emerging security threat, and a field in need of multi-level risk governance.

Date and location: **8 June, 2021** | Workshop

Registration information: <https://www.developmentaid.org/link/h4Grb>

OECD Global Forum on Agriculture 2021: Policies for a more resilient agro-food sector

The OECD Global Forum on Agriculture 2021 is an opportunity for countries to share their experiences in developing policies that can enhance the resilience of the agro-food sector to current and future risks. Building resilience to adverse events implies planning and preparing for shocks before they occur, coping and adapting to them when they strike, and recovering and transforming in ways that provide greater robustness afterwards.

Date and location: **8-9 June 2021** | Virtual

Registration information: <https://www.developmentaid.org/link/sWQv3>

Digital education for a strong recovery: A forward look.

The conference will highlight advances in educational technology based on artificial intelligence (AI), robotics and blockchain. It will also start a dialogue between policy makers, education stakeholders, the global education industry and experts in the field, with a view to sharing knowledge and information, but also to start thinking of related policy issues, international opportunities for collaboration, and strategies about embracing and driving the digital transformation in education.

The World BioEconomy Forum goes to Brazil – live from Belém!

[REGISTER ONLINE](#)

Date and location
18–20 October 2021

Program Link:
<https://wcbef.com/>

The World BioEconomy Forum is pleased to announce that its Forum 2021 will be held in Belém, in the State of Pará, Brazil from 18 - 20 October 2021. Belém is located in the Amazon region of Brazil and will give the Forum the opportunity to highlight the region as of fundamental importance to the global circular bioeconomy. The event will bring together high-level speakers and experts from around the world highlighting Belém and the Amazon region for essential debate on sustainable development.

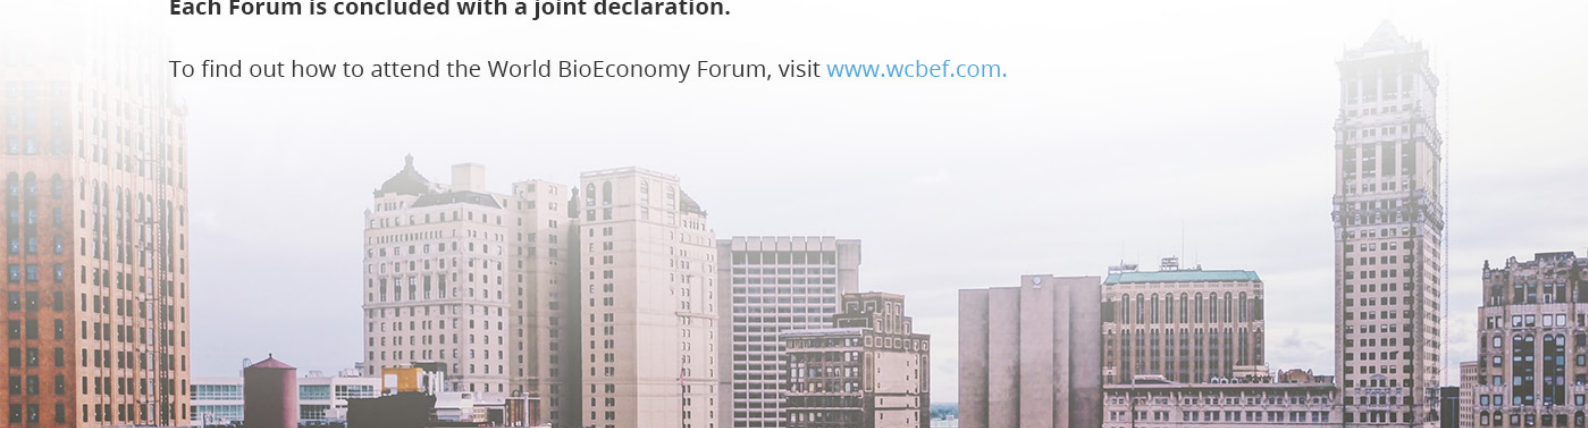

This is the first time that the World BioEconomy Forum has left its usual location in Ruka, Finland. The Forum's advisory board is clearly aware that there is no bioeconomy that fits all, but several bioeconomies built to operate within their own regional economic systems. Therefore, the decision was made to move the Forum periodically to various locations around the world, and particularly in regions where the bioeconomy is at the centre of attention. Belém, in the state of Pará, in Brazil, is a perfect example of this.

Planning of the Forum is well under way and it will follow the agenda of the World BioEconomy Forum. The agenda consists of four thematic areas, which will be covered during the event:

- The Bioeconomy: People, Planet Policies
- Global Leaders and the Financial World
- Bioproducts around us
- Looking to the Future

Each Forum is concluded with a joint declaration.

To find out how to attend the World BioEconomy Forum, visit www.wcbef.com.
