Department of Economic and Social Affairs Committee for Development Policy

The Least Developed Country Category: 2021 Country Snapshots

UN/DESA

The mission of the Department of Economic and Social Affairs of the United Nations Secretariat (UN/DESA) is to promote and support international cooperation in the pursuit of sustainable development for all. UN/DESA's work addresses a range of cross-cutting issues that affect peoples' lives and livelihoods, such as social policy, poverty eradication, employment, social inclusion, inequalities, population, indigenous rights, macroeconomic policy, development finance and cooperation, public sector innovation, forest policy, climate change and sustainable development. To this end, UN/DESA: analyses, generates and compiles a wide range of data and information on development issues; brings together the international community at conferences and summits to address economic and social challenges; supports the formulation of development policies, global standards and norms; supports the implementation of international agreements, including the 2030 Agenda for Sustainable Development; and assists States in meeting their development challenges through a variety of capacity development initiatives. In carrying out its work, UN/DESA engages with a variety of stakeholders around the world--non-governmental organizations, civil society, the private sector, research and academic organizations, philanthropic foundations and intergovernmental organizations--as well as partner organizations in the United Nations system.

CDP

The Committee for Development Policy (CDP) is a subsidiary body of the United Nations Economic and Social Council (ECOSOC). It provides inputs and independent advice to the Council on a wide range of issues that are relevant for the implementation of the 2030 Agenda for Sustainable Development. The CDP is also responsible for reviewing the status of least developed countries (LDCs) and for monitoring their progress after graduation from the category.

Acknowledgements

This publication reflects a collaborative effort of the Committee for Development Policy and the United Nations Department of Economic and Social Affairs. It relied on the support of the secretariat of the CDP under the general supervision of Roland Mollerus, Secretary of the Committee, who counted on excellent substantive support from Annette Becker and Matthias Bruckner.

SUMMARY

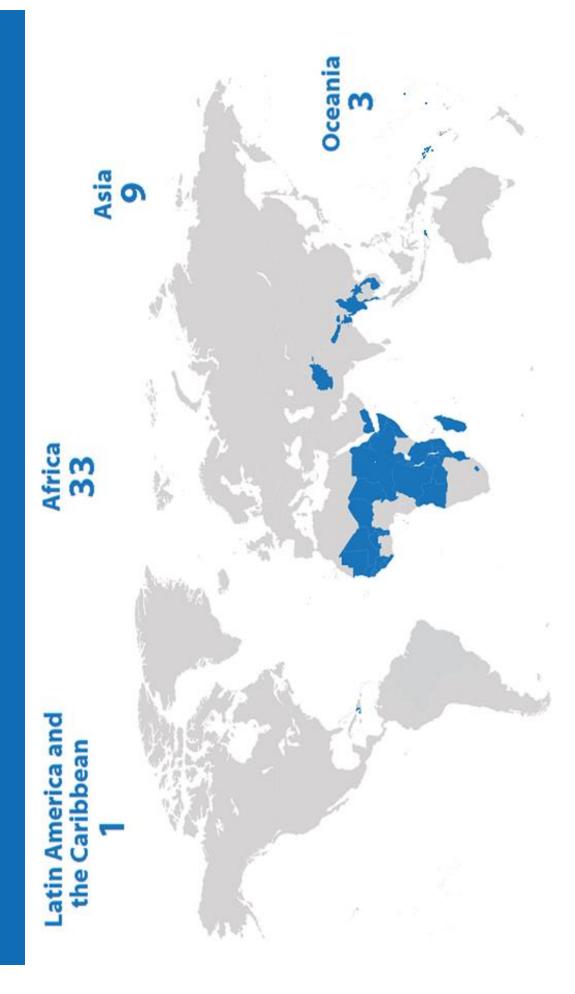

The *2021 Country Snapshots* compile the key statistical data used by the Committee for Development Policy (CDP) at the 2018 triennial review of the least developed country (LDC) category.

LDCs are defined as low-income countries suffering from structural impediments to sustainable development. To identify LDCs, the CDP uses three criteria: gross national income (GNI) per capita; human assets index (HAI) and economic and environmental vulnerability index (EVI). HAI and EVI are indices composed of six and eight indicators, respectively. These fourteen indicators, together with the indices for per capita GNI, HAI and EVI, are presented in two-page profiles for each of the 46 countries classified as LDCs in 2021, thus providing a snapshot of each country's situation at the 2021 triennial review. The snapshots also illustrate the gaps in progress towards the LDC graduation thresholds for each country, while comparing individual outcomes with corresponding results for all LDCs and developing countries. Additionally, each snapshot provides a short overview on the country's LDC status and applicable reports and resolutions related to inclusion into and graduation from the LDC category.

A brief introduction to the LDC category and the inclusion and graduation procedure precedes the country snapshots.

More detailed information on the LDCs and the complete dataset from the 2021 triennial review can be found on the CDP website at https://www.un.org/development/desa/dpad/least-developed-country-category.html

The LDC Category

The LDC category

LDC definition

 Low-income countries confronting severe structural impediments to sustainable development

LDC identification criteria

- Per capita GNI
- Human asset index (HAI)
- Economic and environmental vulnerability index (EVI)

Composition of HAI

All HAI indicators carry a weight of 1/6

LDC review

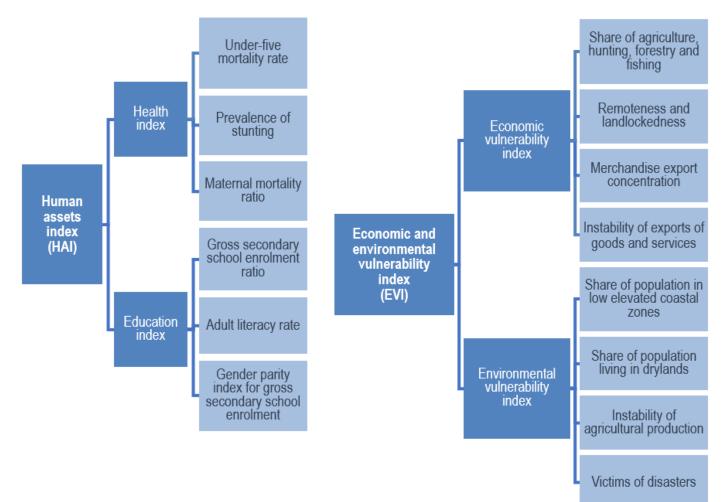

- List of LDCs reviewed triennially by the Committee for Development Policy (CDP)
- Currently 46 countries are included in the list of LDCs

Measures in favour of LDCs

Exclusive access to specific international support in the areas of trade, development assistance, and general support: https://www.un.org/ldcportal/

Composition of EVI

All EV indicators carry a weight of 1/8

Inclusion eligibility

Inclusion threshold must be met for all three criteria (per capita GNI, HAI, EVI) at one triennial review

Inclusion thresholds (2021 triennial review)

- Per capita GNI: \$1,018 or below
- ✤ HAI: 60 or below
- EVI: 36 or above

Inclusion procedure

- UN/DESA formally notifies country of eligibility finding
- CDP submits inclusion recommendation to the Economic and Social Council of the United Nations (ECOSOC)
- ECOSOC endorses the recommendation by the CDP
- Country formally notifies the Secretary-General of its acceptance
- General Assembly takes note of the ECOSOC recommendation
- Inclusion takes effect immediately

Graduation from the LDC category

Graduation eligibility

- Graduation threshold must be for two of the three criteria (per capita GNI, HAI, EVI) at two consecutive triennial reviews
- Alternatively, per capita GNI is at least twice the graduation threshold (income-only criterion)

Graduation thresholds (2021 triennial review)

- Per capita GNI: \$1,222 or above
 - \$2,444 income-only
- ✤ HAI: 66 or above
 ♦ EVI: 32 o

32 or below

Graduation procedure

- Eligibility for graduation has to be met at two consecutive triennial reviews
- After LDC has been found eligible for graduation for the first time, UN/DESA prepares an ex-ante impact assessment, and UNCTAD prepares a vulnerability profile of that country as inputs to the CDP's decisionmaking process
- Country is invited to present its views on the possibility of graduation at the CDP expert group meeting preceding the next triennial review
- CDP recommends the country for graduation based on the LDC criteria and the additional information provided by the country, UN/DESA and UNCTAD
- ECOSOC endorses the recommendation by the CDP
- General Assembly takes note of the decision of ECOSOC
- Graduation takes effect three years after the decision by the General Assembly

Preparation for graduation

- During the three-year period before graduation is effective, country still belongs to the LDC category and is entitled to receive all benefits available to LDC
- Country is invited to prepare a transition strategy in cooperation with development partners
- CDP monitors development progress of the country and the preparation of the transition strategy

Smooth transition from the LDC category

- After graduation is effective, country no longer belongs to the LDC category Country is invited to prepare a transition strategy in cooperation with development partners
- * LDC-specific support should be phased out gradually and in a predictable manner after graduation
- Country implements the transition strategy, supported by development partners
- CDP monitors development progress of the country and the implementation of the transition strategy for three consecutive years after graduation takes effect, then triennially for two triennial reviews
