Virtual Training Workshop on Conflict Engagement and Resolution

This event will explore key concepts, discuss engagement modes, and feature roleplay exercises to build related skills and techniques. The focus will be on recognition, assessment, and management of conflicts in pursuit of resolution.

Date and location: 05 – 09 August 2022 | Online

Registration information: <https://www.developmentaid.org/link/jlIZM>

United Nations

Asia Water Forum

AWF 2022 will take place virtually on 8-11 August 2022. The theme will be "Towards a Resilient and Water Secure Asia and the Pacific." Underpinned by the need for climate change resilience, sustainable water management, reliable water services, and water security, participants can expect high-level plenary sessions and parallel break-out sessions centered around four key focus areas: (i) water as a sustainable resource; (ii) universal water and sanitation services; (iii) productive water in agriculture and the economy; and (iv) climate change and water-related risks.

Date and location: 08 – 11 August 2022 | Online

Registration information: <https://www.developmentaid.org/link/oa9M9>

ICRC

Market Dialogue - Remote beneficiary management and non-traditional data sources

The event aims at bringing together humanitarian actors with the private sector, academia and beyond to discuss opportunities and challenges of beneficiary management, methodologies and usage of both traditional and non-traditional data sources and technologies, while maintaining actionable practices which remain people centered.

Date and location: 09 August 2022 | Online

Registration information: <https://www.developmentaid.org/link/5O00r>

International Youth Day

1.21 billion. That's how many young people between 15 - 24 inhabit the earth – 15.5 per cent of the global population, according to estimates in the 2020 United Nations World Youth Report. This year's theme is "Intergenerational Solidarity: Creating a World for All Ages" to combat ageism and build bridges between generations. From the wisdom of youth to the energy and idealism of the elderly, we must welcome and leverage the gifts people of all ages bring and ensure no one is left behind. The world's problems are too vast for entire generations to be absent from helping address them.

Date and location: 09 August 2022 | Global, Online

Registration information: <https://www.developmentaid.org/link/6JccT>

ICRC

Water and sanitation course – from emergency towards development 2022

This course will train engineers and scientists to plan, implement and monitor emergency water and sanitation programmers, and will help them better understand the organizational context of humanitarian situations.

Date and location: 20 – 27 August 2022 | Centre of Hydrogeology and Geothermics of the University of Neuchâtel (CHYN)

Registration information: <https://www.developmentaid.org/link/IX7cn>

World Water Week 2022

This course will train engineers and scientists to plan, implement and monitor emergency water and sanitation programmers, and will help them better understand the organizational context of humanitarian situations.

European Citizens' Initiative presence at the Political Festival of Europe

Attendees of the Political Festival of Europe, a four-day democracy festival that serves as a platform for European political and societal debates, can visit the European Commission stand and learn more about the European Citizens' Initiative and how to actively get involved in participatory democracy in the EU.

Date and location: 25 – 28 August 2022 | Mariage, Denmark

Registration information: <https://www.developmentaid.org/link/Eu0Qs>

Fourth meeting of the intersessional process considering the Strategic Approach and sound management of chemicals and waste beyond 2020

The consumption of chemicals by all industries and modern society's reliance on chemicals for virtually all manufacturing processes make chemicals production one of the major and most globalized sectors of the world economy. To address this challenge, in 2006 the United Nations Environment Programme launched the Strategic Approach to International Chemicals Management (SAICM), a multi-stakeholder policy framework to promote sound chemicals management around the world. SAICM is the core international forum for achieving a key goal set in 2002 at the World Summit on Sustainable Development: by 2020, chemicals will be used and produced in ways that lead to the minimization of significant adverse effects on human health and the environment.

Date and location: 29 August – 02 September 2022 | Bucharest, Romania
