## Asian Development Outlook April 2023 Launch

Reopening in the People's Republic of China has brightened prospects. Economic activities have gradually normalized—particularly tourism—as economies across the region have stepped up their reopening. But multiple headwinds continue to weigh on the outlook, including the ongoing Russian invasion of Ukraine and the monetary tightening in advanced economies. Asian Development Outlook April 2023 sheds light on these.

## Ocean Visions Biennial Summit 2023

The Ocean Visions Biennial Summit 2023 will be a significant opportunity to advance the sharing of knowledge and solutions to critical challenges at the ocean-climate nexus. The ocean is under threat from a host of pressures, but none loom larger than those caused by greenhouse gas pollution, which drives overheating and acidification. Ocean heating is in turn causing deoxygenation, sea level rise, and disruption of critical marine ecosystem functions and services.

Date and location

4-5 May 2023 | Centro Cultural de Belém, Lisbon

Program Link:

<https://www.developmentaid.org/link/impact-1>

The Impact First Summit, hosted by BAO Systems, will take place from May 4-5, 2023 in Lisbon, Portugal and is a global event that brings together speakers and organizations from the global health and development sector where together we explore the possibilities of achieving impact through technology and data innovations.

We believe digital technology is core to the future of the development sector, capable of improving development outcomes, driving economic growth, and lifting millions out of poverty. The rapidly changing data and technology landscape means that we have more information, evidence and insights than ever before, but efforts must be coordinated to ensure all countries have the tools, knowledge, and resources to use information effectively. By understanding the broad application of technologies across agriculture, health, education, governance, and environmental sectors, we can make meaningful gains.

The summit is designed to provide a forum for participants to engage in meaningful discussions, share ideas, and explore new opportunities to collaborate and make a positive difference in the world.

The Summit will feature plenary and breakout sessions, panel discussions, exhibitor tables, and networking opportunities. The venue offers excellent spaces for presentations, networking, and in-depth discussions, not to mention the scenic location by the waterfront in Lisbon. Join us as we spend two days discussing cutting-edge technologies and approaches to address the world's most pressing development challenges.

If you are passionate about creating social impact, whether you are an established leader, entrepreneur, investor, or simply interested in learning more about the field, then the Impact First Summit in Lisbon is an ideal event for you to attend.

## WHO SHOULD ATTEND:

- Social entrepreneurs who are creating innovative solutions to social and environmental problems.
- Investors who are interested in supporting impact-driven businesses and initiatives.
- Business leaders who want to integrate sustainability and impact into their corporate strategies.
- Government officials and policy makers who are working to create a more sustainable and equitable future.
- Academics and researchers who are studying impact-driven approaches and solutions.
- Non-profit organizations and activists who are working towards social and environmental justice
