# Due Diligence Tools:

## Sanctioned Firms and Individuals

### Mitigate risk with comprehensive sanctioned database access

Ensure your contracting is compliant by checking for their presence on the Sanctioned Firms and Individuals List. Avoid hiring blacklisted entities and reduce risks in your consortium-building process.

#### How It Works

Verify organizations to ensure they are not listed as debarred or sanctioned.

Cross-reference individuals against the global blacklist to avoid hiring disqualified consultants.

Donors cross-reference debarment decisions, preventing sanctioned entities from bidding on projects funded by various donors.

If a donor discovers an allegation of misconduct such as corruption, fraud, or coercive or collusive practices, the implicated firm or individual will

be debarred. This debarment may be enforced across multiple donors, ensuring non-compliance prevents access to future opportunities.

European Bank  
for Reconstruction and Development

THE WORLD BANK

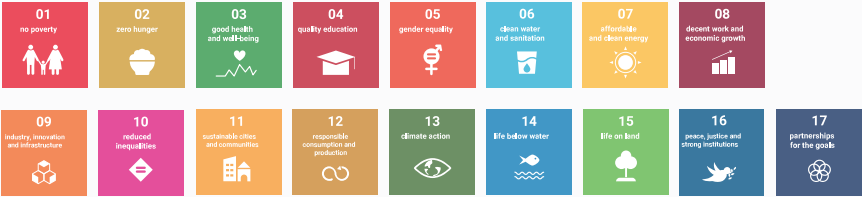

In 2010, the **World Bank, Inter-American Development Bank, African Development Bank, European Bank for Reconstruction and Development, and Asian Development Bank** signed an agreement on the **mutual enforcement of debarments**.

Donors can share information on debarred companies and individuals, often resulting in cross-debarment by other donors.
